**Laura Van Yck**

NEWS RELEASE

FOR IMMEDIATE RELEASE: LOS ANGELES (Feb. 24, 2020)

Women carry it in their bones and in their blood.

The restrictions, the expectations, passed down through generations and reinforced by society, until they bind our minds.

But also within lies each woman's magic, power, and autonomy.

In celebration of [International Women's Day](#), **Theatre Witch** examines what it is to be a woman. This performance art installation explores the physical constrictions and oppressions of being a woman, as well as the reclamation of feminine autonomy through witchcraft and sisterhood.

Audiences may enter and roam the theater space in this immersive-style performance art piece.

**WARNING: This piece involves full nudity, witchcraft, and possibly explicit or triggering themes.**

Formerly True Focus Theater, Theater Witch is dedicated to voicing feminist and inclusive works, with magical and erotic elements.
